

LAPORTE™

Shallow Water Anchor Measurement Form

Power Pole, Minn-Kota Talon, Raptor

Thank you for your interest in our LaPorte Boat Covers! Please obtain the below measurements and requested photos. Please take a photo showing the whole back of the boat and a photo showing the port/starboard side where anchor(s) is located. If you have dual shallow water anchors, be sure to take photos of both the port and starboard sides.

Name: _____

Phone #: _____

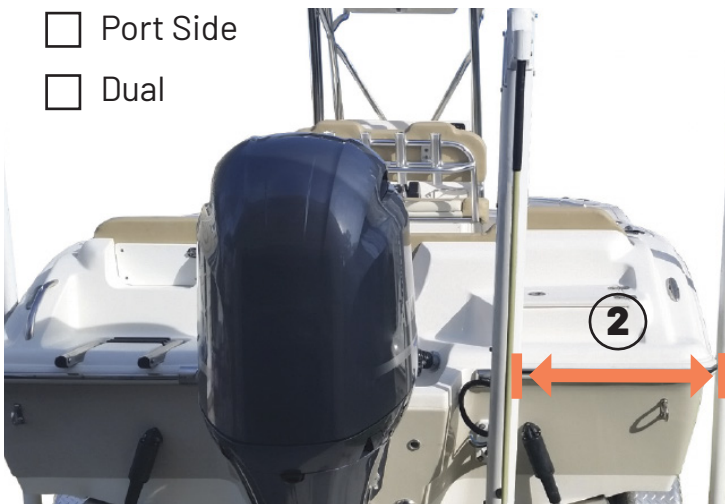

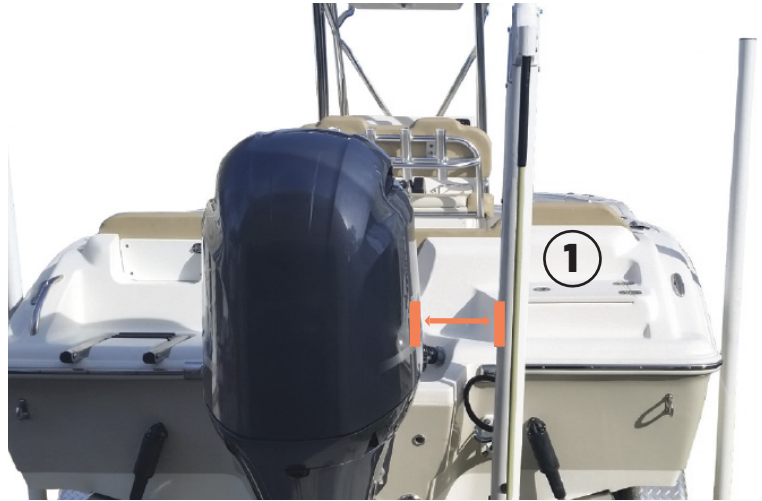

Email: _____

Anchor Pole Mount Location:

- Transom Mount
- Engine Bracket Mount

Location of Anchor Pole:

- Starboard Side
- Port Side
- Dual

Measurement 1: _____

Measurement 2: _____

Measurement 3: _____

1. Measure from the side of the motor cowling to the anchor. If dual, measure the port and starboard sides.

2. Measure from the side of the anchor to the outside edge of the boat. If dual, measure the port and starboard sides.

3. Measure from the rub rail to the backside of the anchor closest to the transom. If dual, measure the port and starboard sides.

Please send the measurement form and photos to design@laporteproducts.com.

If you have questions, call us at 843-760-6101 extension 1.
